

Sandhills Parents and Patrons. Update on School Closing Information: Sandhills school is now running on essential personnel only starting Monday March 30th. Teachers will no longer have in school duty time as we try to stay one step ahead of the COVID - 19 situation. This does not change our zoom class session schedule, our grading expectation (April 6th), or our teachers availability to parents or students. Teachers can continue to use the school facility to get packets ready to send out or to work from their classroom, but we will now be enforcing social distancing in our building.

It is the hope of our board and administration that this change will not affect in anyway the education of our students.

Please contact J.D. at the high school if you have any questions.
